Health Care in the United States: An Evolving System

The United States could reform health care because of the high cost. Medical bankruptcies have affected up to 2 million people. Rising health care costs could threaten to consume the entire federal budget. It has made

the cost of preventive care unaffordable to many. Low-income families may turn to the emergency room, which raising could raise costs even higher.

Why We Need Health Care Reform in the US

A health care system that promises so much would seem capable of minimizing the burdens of illness and care, of

But for too many,

American health care

does the opposite: it

places unexpected and

unnecessary burdens

on the sick. People

struggle to obtain

effective treatments

and services.
