Facts and Norms in Law - Edward Elgar Publishing

If the law is irrelevant, if facts don't matter, and if norms are no stronger than one man's whims, then "law and order" is as much mere smoke from the fireworks as a spectacle scripted to replace medical science with political theater. It's just blah, blah, blah.

Facts, values and norms : Facts and Norms in Law

Anglo-American philosophical treatises on law often begin with a definition of the concept of law itself. In *Between Facts and Norms*, the basic concept of law as a system of rights does not make its full appearance until chapter 3. The ambitious scale of Habermas's undertaking requires considerable preparation, and thus the first

what makes it acquire a binding or a coercive force is the norm of law.

(PDF) Jürgen Habermas' Between Facts and Norms

A legal norm is a binding rule or principle, or norm, that organisations of sovereign power promulgate and enforce in order to regulate social relations. Legal norms determine the rights and duties of individuals who are the subjects of legal relations within the governing jurisdiction at a given point in time. Competent state authorities issue and publish basic aspects of legal norms through a ...
