By the time many of the pioneers reached their final destination, they had many stories to tell. Very few made it all the way without losing or leaving personal belongings along the trail. One of the first things the Pioneers did when they got to their new homes was purchase land. An acre of land cost about \$2.00.

California Indians make baskets and manage landscapes with fire -- and drive pickup trucks and earn doctorates -- in the present tense, planning for a future seven generations distant. In that sense, the thread of California Native history extends farther into the future than that of mainstream society, focused on the next fiscal year at most.

In 1848, gold was discovered at Sutter's Mill in California and people from all over the United States packed their belongings and began to travel by wagon to what they hoped would be new and better life. Since most of these pioneers began their exodus to California in 1849, they are generally referred to as '49ers.
