Resmed S9 User Manual

The ResMed AirSense 10 Machines operate from a 24V direct current. Because of this, the use of a power converter or sine wave power inverter is required to complete the connection between the device and a battery. Best Portable Power Option: Using the portable Freedom rechargeable lithium ion battery with a converter requires a simple 1 cable connection between the battery and cpap machine.

ResMed AirSense 10 AutoSet CPAP Machine ... - The CPAP Shop

I have the ResMed AirSense A10 AutoSet. I started out in Auto mode, and after I found out what pressure works best for me, I switched it to fixed pressure mode. My wife has a S9 and still runs it in Auto mode. I think for people who have significant central apnea a fixed pressure may work better than an auto pressure machine.
