Sony has made a grand addition to the WEGA line. Discover the NEW 50-inch Grand WEGA 16:9 LCD Rear Projection TV -- the KF-50XBR800. Offering 50-inches of flat out fantastic entertainment, this television packs all the power you seek in the perfect size.

Sony 50" XBR Grand Wega Widescreen Rear Projection LCD ...

The 50-inch KF-50XBR800 is the 60-inch Grand Wega's little brother, but size can be deceiving. The KF-50XBR800 shares the same three 1,366-by-768 LCD panels for its image projection. Like all of the new chip-based RPTVs, the KF-50XBR800 isn't very deep, only a little over 16 inches. It still weighs in at 111 pounds, so you might want to enlist ...

Sony achieves this incredible image detail by using three 1.35"-wide LCD elements (one each for the red, green, and blue signals) that achieve picture resolution of over one million pixels. Compared to the previous Grand Wega, the KF-50XBR800 has improved overall black levels by 25%, further enhancing picture brightness and contrast.

Sony KF-50XBR800 50" XBR® Grand Wega HDTV-ready rear ...

I have a Sony KF-50XBR800. Was working beautifully until last week. I now have a green ghost on the left side. Especially noticeable on text and faces. The image correction does not eliminate the ghost. It does change the intensity, but at the lightest setting the ghost is still annoying. I have had the TV for 1 year and three weeks.

KF-60XBR800 Sony's New Grand Wega LCD Projection

Well I bought the Sony KF-50XBR800 cause of the name and that I wanted a new hi-tech tv. In the store it sure looked grate when they were playing a dvd on it as well as satellite HD After setting up the TV and comparing it with my pioneer pro-610 I noticed that the blacks were not deep black like on the crt tv I tried adjusting the contrast and the brightness to get the gray washed out look out ...

I have a SONY KF-50XBR800 with Ghosting problems. This is a LCD projection TV. I have looked at your answer for the rear projection TV and cannot find the "black box" you describe as the control to correct. Can you please tell me where this is located on my TV or if there is a different solution I should try to correct the ghosting problem.
